

# **The Tools Your Child Needs for Success in School**

**An interview with Tim Law by Anthony Kane, MD**

## **Topics for Discussion**

1. How do I get my child to care about school?
2. How do I make my child understand that school is important and to make homework a priority?
3. How do I stop my child from cutting school and prevent him from dropping out?

8. I have tried for so many years to get my child to behave in school and do the work, but it still hasn't happened. When is it time to consider alternatives to school such as home schooling, boot camps? What are my options?

**Notes:**

# How to Get on Tonight's Call
